EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Omkar Suryadevra on April 5, 2004.

The application has been amended as follows: In claim 9, line 6, after "body" insert - - extending along a first axis- - and after "- -extending" - -along a second axis- -; in line 7, delete "main body" and insert - -first axis, each plug being rotated along the first axis,- - ; in line 8, after "with" insert - - a space through which- - , and after "array" insert - -is to be removed- -; in line 9 after "board" insert - -and removing the second plug through said space- -.

Allowable Subject Matter

Claims 9-26 are allowed.

The following is an examiner's statement of reasons for allowance: regarding claim 9, patentability resides, at least in part, in the method for dismounting comprising rotating plugs that are in a two-dimensional array and after rotating the plugs. Each plug's wire exit does not interfere with a second plug and unplugging second plugs without affecting the other plugs, in combination with the other limitations of the base claim. The reasons for allowance of claims 13 and 21 were discussed in a previous Office Action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mason 3,975,075, Inaba et al. 5,447,454 and Newcomb, Jr., et al. 3,019,287.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
